

LAMPO FLEX

CUTTING DEPTH

Adjustable cutting depth from 0 to 25 mm, with a guide for the different measures.

END LINE INDICATOR

End line marks the cutting limit reached by the disc, based on the set maximum cutting depth.

DRY DUST EXTRACTION

It is possible to attach a suction system thanks to a hose connection of Ø35 mm.

GRINDER CONNECTION

Adjustable, universal grinder attachment.

ADJUSTABLE BEARINGS

The bearings on the rail are easily adjustable to customize the work.
